DETAILED ACTION

Claim Objections

1. Claim 83 is objected to because of the following informalities: in claim 83, there are two periods; claims should only contain one period. Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 73-83, 105 and 106 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 73 recites, "a WDM combiner connected to the PSK modulator to combine multiple signals..." Since the WDM combiner is connected to the PSK modulator, it is not clear if applicant refers to the multiple optical signals as the RZ-PSK signals.

Allowable Subject Matter

- 4. Claims 85-94 are allowed.
- 5. Claims 73-83, 105 and 106 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
